PROJRCTS

1) **Convert Text to Speech in Python**
Text to speech project takes words as input on digital devices and converts them into audio or speech with a button click or finger touch.

2) **Library Management System**
This project provides functionalities like add book, issue book, return the book, viewbook, delete a book, etc.

3) **Stock Management system**
In this project, you can check the stock of a particular store and can search the items with its quantity. It has no graphics but can be used for practical purposes.
